PRESIDENT 'S REPORT

Dear All

It has been a busy year as you will see from the report. New initiatives started and collaborations have strengthened. For us the biggest achievement this year was to become the first organisation in the world to mark independence eve of Pakistan on 14th August as the clock strikes midnight by singing national anthem.

While we acknowledge your support, it is important that we also have a plan for transition and so far we have not been successful in motivating others to take leadership roles. Please do consider.

Thank you
